SUMMARY

Results-driven Software Engineer with 3+ years of experience in full-stack development and cloud computing. Skilled in designing and deploying scalable web applications using JavaScript, Node.js, Express.js, React.js, and AWS services. Adept at collaborating with cross-functional teams, implementing best practices, and optimizing performance and cost in cloud environments. Strong problem-solving skills, agile mindset, and passion for delivering value through innovative technology solutions.

EXPERIENCE (3+ YEAR)

Software Engineer

Esstart

September 2023 - Present, Remote (US)

- Designed and implemented cloud-native solutions in a product-based environment with a focus on AWS services.
- Collaborated with cross-functional teams to architect scalable and resilient AWS infrastructures.
- Managed cloud resources to optimize performance and reduce costs by streamlining provisioning and monitoring processes.
- Implemented robust AWS security measures to safeguard data and systems.
- Researched and integrated emerging AWS technologies to enhance product capabilities.

Software Engineer

IOanyT Innovations

December 2022 - September 2023, Noida, India

- Built and deployed serverless architectures using AWS Lambda, API Gateway, and DynamoDB to improve scalability.
- Implemented IAM (Identity and Access Management) best practices with role-based access control to strengthen security.
- Developed AWS infrastructure-as-code solutions using CloudFormation and YAML.
- Managed S3 storage for backup, lifecycle policies, and version control to reduce storage overhead.
- Configured user accounts and environments for Development, Testing, and Production setups on AWS.

Intern

Technosters Technologies Pvt. Ltd.

June 2022 - November 2022, Agra, India

- Frontend: Expertise in building dynamic user interfaces using React.js and React Hooks.
 - Backend: Strong experience in developing server-side applications with Node.js and Express.js for RESTful APIs.
 - Databases: Proficient in working with MySQL, MSSQL, and MongoDB for efficient data management.
 - ORMs: Skilled in using Sequelize (for MySQL/MSSQL) and Mongoose (for MongoDB) for data modeling and CRUD operations.
-

PROJECT

Bigainn

- Built a full-stack application using Node.js, Express.js, React Native, and MySQL.
- Enabled users to invest, view portfolios, track profits/losses, and process deposits/withdrawals with role-based approvals.
- Integrated SIP calculator and notification system to improve user engagement and retention.
- Created admin and manager dashboards with user-role-permission management.

Warehouse Management System

- Developed a warehouse system using Node.js, Express.js, React.js, MSSQL, and AWS.
- Built admin panel for CRUD operations on users, roles, inventory, vendors, customers, and purchase orders.
- Integrated MSA report generation and automated reporting in Excel.
- Implemented payment tracking and outstanding dues calculation on the backend.

Lead Management System

- Developed a lead tracking system using Node.js, Express.js, React.js, and MySQL.
 - Enabled telecallers to log calls, schedule follow-ups, and escalate leads to managers.
 - Built dashboards with role-based access, user management, and task reminders.
-

EDUCATION

Bachelor of Computer Applications (2020-2023)

Swami Vivekanand Subharti University • Meerut, Uttar Pradesh

CERTIFICATIONS

AWS Certified Cloud Practitioner

AWS • 2024

• <https://www.credly.com/badges/e7af9998-0ad6-45d9-92e0-38ec87627d88>

Full Stack Software Developer Assessment

IBM (Coursera) • 2021

• <https://www.coursera.org/account/accomplishments/certificate/HZUFN76VN28Y>

Introduction to Cloud Computing

IBM (Coursera) • 2021

• <https://www.coursera.org/account/accomplishments/certificate/C23KUKWEN9L6>

SKILLS

Languages & Frameworks: JavaScript, TypeScript, Node.js, Express.js, React.js, GraphQL, REST APIs, Data Structures & Algorithms

Databases: MySQL, MSSQL, MongoDB, PostgreSQL

Tools & IDEs: Git, GitHub, Bitbucket, Jira, Asana, Postman, VS Code, IntelliJ IDEA, Eclipse

Cloud & DevOps: AWS (Lambda, API Gateway, DynamoDB, CloudFormation, EC2, S3, Route 53, CloudWatch, IAM, Cognito, SNS, SQS, SES, EventBridge, WAF, CloudFront, Systems Manager, Global Accelerator), CI/CD, Infrastructure as Code

Other: Agile & Scrum, Microservices Architecture, OOP, Unit Testing, WebSockets, Stripe, Firebase, Linux
